Respond to Threats Identified in Defender for Office 365

At the end of this episode, I will be able to:

1. Review and respond to threats identified in Defender for Office 365, including threats and investigations

Learner Objective: *Respond to threats in Defender for Office 365*

Description: In this episode, you will learn to review and respond to threats in Defender for Office 365. This includes using threat trackers and tracked queries in the Microsoft 365 Defender portal.

- Threat Trackers are available with Microsoft Defender for Office 365 Plan 2
- Threat Trackers include:

    - Noteworthy trackers
    - Trending trackers
    - Tracked queries
    - Saved queries

- To use these trackers, go to Microsoft 365 Defender portal -> Email & collaboration -> Threat tracker
- Noteworthy trackers - risks that Microsoft thinks you should know about - example is Wannacry
- Trending trackers (formerly called Campaigns) - new threats received in your email in the past week
- Tracked queries - this is a simple interface to access your saved queries
